Easy to use!
This is the exact reproduction
of the AZ selecting panel template
and this will avoid to you a lot of errors
while building your selecting panel! — You can
arrange, manage, plan all music on your project
with this utility before the final selecting panel
building!

INSTRUCTIONS - How to use

- 1 - Select all 156 tunes you want on your PDF jukebox
 - 2 - Establish the order of your music by theme, style or mixed
 - 3 - Locate the page SC... of your choice in this manual prior building
 - 4 - Then, begin writing the title of the 2 sides "A" or "B" of your first record
 - 5 - Once done, write the artist name towards the "ARTIST" red box on the orange text box
- Your first record is done! — Proceed in the same manner for all other records:
C-D, E-F, G-H, I-J, K-L, M-N, O-P, Q-R, S-T, U-V, W-X, Y-Z until the page SC... is entirely filled
and then, save the changes in the "SP Building Engine" document. After, begin
another page of this document within the same process until the entire document is filled.
When it's done, build your selecting panel according to your settings in this utility!
